

## Number of Participants Stratified by Gender in the C8 Health Project

### Gender

		Frequency	Percent
Valid	Female	35788	51.8
	Male	33242	48.2
	Total	69030	100.0

### Gender

Reader's Guide to Understanding This Information:  
Participation in the C8 Health Project was virtually equally split between men and women and closely matched both the West Virginia and Ohio population.
