

Summary Results for Triglycerides for Participants Fasting for < 4 Hours

TRIGLYCERIDES AFTER <4 HOURS OF FASTING

FOR ALL AGE GROUPS

PARTICIPANTS=28367, MEAN=178.95, STANDARD DEVIATION=146.93

1st PERCENTILE=40.00, MEDIAN=142.00, 99th PERCENTILE=699.00

Reader's Guide to Understanding This Information:

These graphs represent results for participants reporting less than a 4 hour fast prior to providing a blood sample. Due to the non-fasting status of these participants, these results are difficult to interpret.
